Sonnenschein are known for their high quality dryfit batteries which are ideal for use in a range of deep cycle applications. Offering optimal performance with their high cyclic endurance, they are compact, versatile, and hard wearing. If you need a battery that can withstand extreme operating conditions, Sonnenschein is the ideal choice.

Dryfit technology consists of closed-system batteries in which the electrolyte is fixed in a gel. This means these batteries are totally maintenance free so you will never need to top them up during their lifetime.

The Sonnenschein GF-V Range can be used in a number of applications including cleaning machines, material handling, access platforms and more. If you have any questions about which battery fits your needs, contact Battery Service Hub today and our specialists will be happy to help.
